## SPLENDID TALENT SECURED FOR THE Y. M. C. A. CONCERT

A PROGRAMME OF EXCELLENCE WILL BE PROVIDED MONDAY EVENING NEXT BY THE COMMITTEE OF LADIES IN CHARGE OF THE ARRANGEMENTS MADE

When the ladies of Sidney take charge of an entertainment of any kind it is a sure indication that it will be a success, and it only needs a glance at the names of the artists secured for next Monday evening for the grand concert in aid of the local Y. M. C. A. branch to convince even the most skeptical that the affair will surpass previous efforts along this line from a musical point of view. On account of the short time at the disposal of the committee it is not at present possible to give the complete programme, but the services of practically all the artists have been secured, which includes the following well known names:

Miss Eva Hart, the Sagnich prima donna, will sing one or more selections. And it is expected, although not yet known definitely, that Mrs. Harry Pooley, of Victoria, will also appear. Mr. Robert Sloan, the great Scottish comedian, who resides in Sidney, will give one of his very amusing and laugh provoking selections, and as it is not often this artist can be prevailed upon to appear his presence on the programme should be well worth the price of admission alone.

Capt. Leslie, of the 231st Battalion Seaforth Highlanders, and Pte. Dixon of the same battalion, have signified their intention of lending a helping hand, and as both these singers have wide renown their selections will add greatly to the pleasure of the evening.

It will also be a source of pleasure to many to know that Mrs. McConnon, Miss Lillian Haggarty, Miss Mamie Fraser and Mr. H. R. B. McKenzie, all well-known Victorian artists, will be heard again on this occasion.

Dr. Stuart Tidey will give one of his popular recitations and Miss Margaret Bowman, an advanced pupil of Miss Eva Hart's, will make her initial appearance before a Sidney audience.

The arrangements for the concert, which will be held in Berquist Hall at 8 o'clock on Monday evening next, are proceeding smoothly and satisfactorily and congratulations are certainly due the members of the ladies committee for their efforts in providing such an excellent array of talent as will appear on this occasion.

### A VALUABLE REPORT

The focussing of public attention in Canada upon the problem of strengthening our national organization through increased industrial and commercial efficiency lends special value and interest to the Seventh Annual Report of the Commission of Conservation, which has just been issued. The activities of this commission, relating to the entire field of primary production, aim to secure greater efficiency in basic industry—in the development

and utilization of Canada's natural resources.

The resume of the past year's work is notable primarily for the progress recorded in the constructive program entered upon by the newly formed Town Planning branch, with respect to one of our greatest and most urgent national problems, viz, the proper use and development of land, particularly in urban areas. Town-planning legislation of an advanced character has been secured in several provinces and thorough investigation of housing conditions has also been undertaken with a view to the drafting of model housing laws. Rapid progress has been achieved in the promotion of independent civic organization throughout the Dominion for the purpose of securing more general and thorough study of public questions.

A second noteworthy feature is the attention devoted by the Commission to the reduction of the heavy economic handicap imposed upon Canada through her enormous annual fire losses. The Commission is engaged in a careful study of the causes, the extent and best methods of remedying this avoidable tax upon the country's resources.

The section of the report containing the results of an agricultural survey in four representative counties presents accurate and definite data regarding the deficiencies of Canada's chief industry and affords a valuable indication of the lines along which efforts to improve rural conditions, economic and social, should be directed.

Steady progress has been made by the commission in the huge task of national stock-taking, the urgent necessity for which daily becomes more apparent. Recent experience has in a measure served to emphasize the need for accurate knowledge of the nature and extent of the Dominion's wealth in lands, forests, minerals, water-powers, fisheries and wild life, as a guidance to intelligent and permanent national expansion.

The report, which is bound in cloth, and well illustrated, constitutes an important addition to the literature on Canada's resources and the problems connected with their efficient administration and development.

"Smell anything, grandmother?" asked the youngster who was lying on the floor drawing.

Grandmother assured him she did not.

The young artist gave a few finishing touches and repeated his question. Grandmother sniffed the air and again declared she smelled nothing.

"Well," said the boy, "you ought to. I have just drawn a skunk."

The hotbed, prepared as for starting tender plants in the spring may be made to produce a fine supply of lettuce and radishes for use in December.

A broom will last longer if dipped for a minute or two in a pail of boiling suds once a week.

The natural craving of children for something sweet is well and satisfactorily met by giving them honey.

Used in baking and confectionery, honey has the useful property of keeping cakes and sweetmeats moist and fresh for a considerable time.

### DANCE IN AID OF COMFORT FUND OF 331ST BATTALION

There have been many dances and entertainments during the time the soldiers have been with us, but perhaps the one that will prove to be the feature of the whole series of entertainments for the benefit and amusement of all concerned will be the dance to be held to-morrow, Friday evening, in Berquist Hall under the patronage of Mrs. F. E. Leach.

The proceeds of the evening will go towards establishing a "Comfort Fund" for that popular battalion known as the 231st Seaforth Highlanders which have been in camp here during the summer months. A very interesting and pleasant time is looked forward to by those who anticipate attending, and as there is almost certain to be a very large attendance of citizens as well as many officers and men from both battalions the net proceeds should amount to a considerable sum.

### GIVES GOOD ADVICE.

This the last week of the soldiers' stay in Sidney has been a very busy one at the local Y. M. C. A. Starting with the Sunday class under the leadership of Pte. Turner, the days have been a continuous round of activity.

The outstanding feature of the week's programme was the Wednesday evening service, which was in charge of Rev. T. C. Des Barres. About one hundred men turned out to hear a very fine address, and no one went away disappointed.

On Thursday evening No. 2 Company of the 143rd Battalion will give a concert to which all are invited.

With the time of departure fast approaching the secretaries wish to take this opportunity of thanking those residents of Sidney who have helped on the work in this camp so much during the past few months. Their help has been of great material assistance and has been very greatly appreciated.

In a letter dated October 20 and addressed to the Members of the British Columbia Fruit Growers' Association, President Thomas Abriel has the following to say:

"As president of the B. C. Fruit Growers' Association I have been looking over the advertising done by the association here in Calgary in connection with the first Dolls Product Exhibition, which was held on Tuesday, Wednesday and Thursday of this week, and from my observations in this province I feel that much effective advertising has been accomplished by having the display of B. C.

apples at the show.

The staging of our fruit was done in a very attractive manner, and speaking as an onlooker, one could easily see the exhibit from all parts of the Horse Show Building in which the exhibition was held.

Possibly more could have been done but as it is a new idea to stage an apple exhibit whilst citizens of Calgary are holding a fair of their own in which the products of the Vacant Lot Garden Club predominate, it would be rather unfair for us to take the cream of the praise, but we accomplished this on the occasion although we had no intention of doing so. I know that every member of our association would have been proud to have seen this fine display of apples that was brought together for this event by your Markets Commissioner, Mr. W. E. McTaggart.

I am informed that there was some disappointments at not being able to secure more apples for this work from the growers of British Columbia brought about by several causes, some of which were that apples shipped from interior points in British Columbia on October 7th and 8th and 9th were not received in Calgary in time to stage them on the 17th. These shipments were shipped by L. C.L. freight, coming a distance of slightly over 300 miles.

Further I have an idea that we as growers did not attach sufficient importance to the amount of advertising we would receive from a show of this nature. Those of us who thought along such lines as these have made a mistake, considering the small expenditure involved in an exhibition of this kind. I know of no other form of advertising in which we can obtain such excellent results at so little expense for the growers of British Columbia.

We must not think that this Soils Products Exhibition was a local affair, for stock sales were held every day, these bringing buyers and salesmen from many parts of Alberta and a number from Manitoba and Saskatchewan, from which you will see that this fair was more of a provincial event and has established itself as an event in affairs of Western Canada. It afforded us an excellent chance to show the people of the prairie provinces what kind of apples we can grow in our prolific province.

The suggestion that I have to offer for the future is this: Let us make this Calgary Fall Fair an exhibition on a par with that which our neighbors south of the line have established with their Spokane Apple Show. We spend hundreds and hundreds of dollars in British Columbia on our own home local fairs—why not spend some money on an apple show that will practically take in a large part of the three prairie provinces, for is it not the prairies where we are placing the largest part of our apple crop? Considering the small amount of money necessary to stage an exhibit under such conditions as those which prevailed during the week, we must prepare to carry out this scheme every year.

I know no other form of advertising from which our growers can get the same results as in this way, and it would be the very best kind of business for us to make this an annual event.

To me it looks as if this Soil Products Exhibition will as time goes on develop into one of the big fairs of Alberta, and if my forecasts are fulfilled, it behoves our association and the growers of British Columbia to keep pace with their end of the display.

## TO BREAK CAMP TUESDAY NEXT

RUMORS TO THAT EFFECT ARE NOW IN CIRCULATION IN SIDNEY.

A persistent rumor has been going the rounds this week that the two battalions in camp here would begin to move to winter quarters on Tuesday next. No official confirmation of this report can be obtained but considerable color is lent to it by the fact that on Tuesday last the Yukon men which have been attached to the 231st Battalion, Seaforth Highlanders, for training purposes since their arrival from the north some months ago, departed for their winter quarters at the Willows Camp, Victoria. They were accompanied to the V. & S. station by the officers and men of the 231st Battalion, led by both the pipers and brass bands. The parade was watched with much interest by many of the citizens of Sidney.

On the Monday previous a couple of ~~squad~~ of men were sent as an advance guard to Vancouver to prepare the winter quarters for the 231st, and a number of men from the 143rd Battalion were also dispatched to Victoria with instructions to have things in readiness for the B. C. Bantams in the near future.

Altogether it looks at present as if the troops would break camp on the date mentioned, but whether or not this will happen remains to be seen.

### TIPS FOR OCTOBER GARDENER

The most important operation in the garden this month is to see that all vegetables of value are harvested and safely stored for winter use.

Garden produce, like ripe and green tomatoes, ripe cucumbers, unripe muskmelons and watermelons, which often goes to waste in the fall, may be used for preserves and pickles. Look up the old recipes, and see what additions you can make to your winter supplies.

Collect and destroy all garden refuse. Cabbage plants, pea vines, potato tops and other garden refuse often serve as hiding places for diseases or insects until next year.

Plough the garden before the ground freezes. It will rid the soil of many pests and improve its physical condition.

Give the poultry free run of the garden. They will pick up many weed seeds and injurious insects.

Burn the old tops of the asparagus and give the bed a good mulching with rich manure.

One day last summer a hobo hired out to a farmer who was head over heels in work. The hobo worked till dark, then helped with the chores, and it was half-past nine by the time he got to supper. After supper he went to bed. About four the next morning he was called to get up. When he came down breakfast was ready. He ate another hearty meal and started upstairs again—saying: "This is the best place I ever worked—two suppers in one night and back to bed again."

### YOU CAN HELP.

Under the caption "What You Can Do For the Returned Soldiers," Mr. A. R. Doble, president of the Khaki League, Montreal, has the following suggestions to make:

"The Military Hospitals Commission and many official and private organizations are spending much time and energy in behalf of the returned soldiers, but every Canadian citizen should and can take an interest in the national heroes.

Many have neither time nor opportunity to join an organization for that purpose, but much is to be done by individual effort, intelligently directed. Here are a few suggestions which may help you to do your part:

#### Give Them a Welcome.

When you see in the papers that any of the boys are returning to your neighborhood, get together with a few of your neighbors and give them a hearty reception. Don't treat them to alcoholic refreshments, as many of the men are not in a normal state owing to what they have been through. While, under ordinary circumstances, a drink might do them no harm, under present conditions it might be a very bad thing for them. You will not wish to do an injury to those who have endured so much for you.

#### Employment.

Find out what jobs are vacant in your community. Make it a matter of pride for employers to give the first chance to a returned soldier. Encourage the men to get back to work. Loafing is bad for them, as it is for any of us.

If you are an employer, give the returned soldier a fair show. It may take a little time for him to get his bearings. Have patience with them and encourage them—they have suffered so much for you.

Be in a position to advise the returned soldier where to go in case of need. If you see one in any difficulty try to help him out, or go with him where he can get proper attention.

### WHILE WE ARE WAITING.

It seems weary waiting till that that fair day of peace shall dawn, does it not? Winter is drawing on and with its coming the suffering and hardship of the brave men who are fighting for us will be multiplied many fold. And still the end keeps out of sight and no one can tell us anything as to how or when it will come. Well, what can we do about it? Not much, perhaps, only try to be patient, and as trustful and courageous as we may. But yes, we can do this, we can remember that God is waiting very much as we are. He too has to let these human processes work themselves out. He would like the end, even as we cannot, and yet, speaking with all reverence, He cannot hurry it. After having done what he can to heal the great hurt of the world we must think of Him as waiting in patience until the will and temper of men will let Him work His purpose. And if we have done and are doing what we can, we ought to be able in some measure to enter into His patience; we ought to be able in some degree to wait patiently with Him.—Christian Guardian.

It would be difficult to make every farmer believe that lack of sanitary equipment for his household and neglect of his barnyard caused sickness and deaths in his family. It may be impossible to convince him that the death of his wife at an

early age was a result of too much pumping, churning and washing by hand, but they are really so closely related as cause and effect that one might almost declare that only the willfully blind will or can fail to see their relation—American Lumberman.

## MAJOR FOSTER DEFEATED BY FOUR VOTES IN ISLANDS

The first returns of the soldiers' vote in England have been received in cable messages from London. While the detailed figures for each candidate are not yet available, the majorities in twenty-four constituencies have been reported. They show that the vote generally was more favorable to the Conservative candidates than to those of the opposition party but so far as recorded they make no change in the standing of the parties as shown by the civilian vote and that of the soldiers in Canada.

Lieut. F. J. A. Mackenzie, in Delta whose minority was converted into a majority over his Liberal opponent by the soldiers' vote in Canada, had that majority further increased. Hon. W. R. Ross, in Fort George, is elected, and the Liberal hopes that the soldiers in Europe would not vote for him because he was a new comer in that riding have been dashed. The soldiers gave majorities to Major W. W. Foster, in the Islands, and Capt. J. G. C. Wood, in Alberni, but their support was not sufficient to wipe out the Liberal majorities given by the home vote. In Comox Mr. Michael Manson, Conservative, secured an English lead of eight, but it was not sufficient to get him in, and his opponent, Mr. Hugh Stewart, wins by a majority of 20. Capt. W. H. Hayward, in Gowichan, had his home majority over Mr. K. Duncan of 55 increased by the English vote to 131.

In Esquimalt, Mr. R. H. Poolley, Conservative, secured a majority in England of 36, cutting down Mr. A. W. McCurdy's lead to 2. Mr. Poolley will demand a recount, for he is confident that another scrutiny of the rejected ballots here will add more than the two needed to put him in.

Major Foster, Islands, secured a majority of 19 over Mr. M. B. Jackson, Liberal, but he was 23 behind on the home vote.

Mr. William Sloan, Liberal candidate in Nanaimo, increased his majority to 559 over Mr. A. E. Planta, Conservative, and in Newcastle, the Socialist candidate, Mr. Parker Williams, added 10 to his previous majority of 110. In Alberni, Capt. Wood got a majority of 3 in England but he is still 38 behind the Liberal leader, Mr. H. C. Brewster.

On the Mainland, Mr. Frank Mobley in Atlin, added 3 to his majority of 53 over Mr. W. Macdonald, Conservative; Mr. John Yorston, Liberal, added 55, making his majority over Mr. J. A. Fraser, Conservative, 243; Mr. W. L. Macken, in Chilliwack, got a majority of 8, but he is still 180 behind Mr. E. D. Barrow, the Liberal candidate; in Columbia, Dr. Taylor, on active service at the front, was 3 behind J. Buchham, Liberal, whose net majority is now 266.

Lieut. Mackenzie had a majority of 33 over his Liberal opponent, Mr. A. D. Patterson, in Delta, and this by the English vote, was increased to 58. Mr. John Oliver's majority in Dewdney was pulled down 3, but he is still 137 up. In Cranbrook, Dr. King, Liberal, had his majority over Mr. T. D. Caven increased to a total of 224, the English majority being 19. Mr. Thomas Uphill, Conservative candidate in Fernie, got an English majority of 42, but his opponent, Mr. A. I. Fraser, is still ahead by 79. In Fort George, Mr. Ross' majority of 19 was cut to 10. In Grand Forks, Mr. J. E. Thomson, Liberal, added 2, making his majority over Hon. E. E. Miller 250, and Dr. McLean's lead of 270 over Mr. J. R. Jackson, Conservative, in Greenwood was increased by 16 to 286.

Mr. Archie Macdonald, Conservative candidate in Lillooet, added 4 to his home majority of 26.

### SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta the Yukon Territory, the North-West Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. No more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

## Check That Cough of Yours!

Nearly twenty per cent. of all deaths are caused by ailments which begin with coughs and colds. In every cough, however slight, there lurks the danger of some malignant throat or lung trouble. You can't always avoid a cough but you can escape danger by treating it promptly. A cough is the result of an inflammation in the air passages. It's nature's way of ridding the tubes of an accumulation of waste matter. The only way to stop a cough is to remove the cause, and it's easier to remove it at the start. There is no use for any one to suffer from the annoyances of a cough and take chances of it resulting in something more serious, when there is a reliable remedy like

PURITY WHITE PINE AND TAR WITH MENTHOL AND EUCALYPTUS.

# LOGANBERRY JUICE MAY MAKE VICTORIA FAMOUS

Mr. James Fullerton, of Oregon, U.  
S.A., addressing a meeting at the  
recent Made-in-Victoria Fair, had the  
following to say about the loganberry  
and the possibilities of its cultiva-  
tion on Vancouver Island:

"It gives me great pleasure to have  
the privilege to address a gathering  
of my fellow-countrymen, for although  
I am living in the United States and  
have taken out naturalization papers,  
I volunteered to come back to the  
colors when war was declared. I am  
British to the core," said Mr. James

Fullerton, of Oregon, U.  
S.A., addressing a meeting at the  
recent Made-in-Victoria Fair, had the  
following to say about the loganberry  
and the possibilities of its cultiva-  
tion on Vancouver Island:

"There is no reason why Vancouver  
Island should not reap just as good a  
harvest as we in Willamette have had  
if the people have only faith, get up  
and stick-to-itiveness," he continued.  
"There is no business to-day that  
pays as well as the loganberry indus-  
try. While offering such absolute se-  
curity it requires less labor, takes  
less time to bring returns, and when  
they begin to come in there is no  
such thing as failure of crop."

### History of the Berry.

Mr. Fullerton told something of the  
history of the berry, which was a  
cross of wild blackberry and the cul-  
tivated raspberry effected by  
Judge Logan, of Santa Cruz, about  
33 years ago. Burbank had improved  
it by crossing again with the dew-  
berry. The fruit contained, Mr. Ful-  
lerton asserted, 40 per cent. of sugar.  
This chemical analysis has shown.  
It was possible by too great heat to  
seal that sugar up. On the other  
hand, if properly neutralized, the sug-  
ar became emulsified and gave a much  
finer flavor to the juice.

"The loganberry industry is a sound  
thing," said Mr. Fullerton, who com-  
pared it with an ordinary land boom  
to the detriment of the latter. The  
loganberry industry gave employment.  
The product was easily sold for cash.  
Every acre of loganberries added real  
wealth to the community.

"No town can thrive when it goes  
ahead of the country tributary to it,"  
averred the speaker. "Nothing will  
develop the country faster than this  
berry. I do not know if you have  
any record of crops round Victoria,  
but four to five tons is considered a  
fair crop with us, and a great many  
have made long contracts for years  
at \$60 per ton to deliver at the juice  
factories. I think \$70 a fairer price.  
It is no longer an experiment, and in  
going into it you are not taking any  
risks for the demand for the juice is  
so great and increasing so rapidly  
that this generation will never catch  
up. You of British Columbia have all  
Canada for a market for we cannot  
pay 30 per cent. duty and compete  
with you."

Mr. Fullerton gave figures. Ten  
thousand acres adjoining Victoria  
with a guarantee of \$70 per ton and  
only four tons yield to the acre  
would mean that the farmers among  
them would get \$2,800,000. It would  
be preferable to have one thousand  
ten-acre tracts to larger tracts. Ten  
acres would produce 40 tons, worth  
\$2,800, at a cost for picking, culti-  
vating and trimming the vines of  
\$1,000. If there were 1,000 families  
adjoining Victoria with homes of  
their own and a net income of \$1,800  
as well as most of their living off the  
place and the part of that \$1,000  
that they had earned themselves Vic-  
toria would have another boom, a  
boom the bottom would not fall out  
of.

"But in order to make the berry-  
growing a success you must have a  
factory to take the produce and pay  
cash for it. At first you would have  
but few berries, but in two years  
with the incentive of \$70 a ton a  
large acreage would be planted and  
by the factory contracting to take all  
as planted when it came into bearing  
there would be no danger from opposi-  
tion." The factory to start with,  
Mr. Fullerton pointed out, need not  
be a costly affair, and the officers of  
the company should not be looking  
for big salaries till big returns came  
in.

The juice is in large demand. He  
had recently visited Denver and St.  
Paul and Minneapolis and found the  
demand far exceeding the supply ever  
where. The same would apply in  
Eastern Canada, the minute people

had a chance to taste it. A ton of  
berries would make from 175 to 200  
gallons, leaving 100 pounds of pum-  
pice. All the products must be used.  
The factories in Oregon had not yet  
made use of the pumice.

"But," went on Mr. Fullerton hum-  
orously, "it can easily be saved and  
made into candy, jelly, jams, etc.,  
and the seeds, though a small item,  
will make chlorine gas to choke the  
Germans."

It was claimed that everywhere  
loganberry juice outsold any other  
fruit juice. The only trouble was  
that the manufacture did not keep  
pace with the demand.

### Cost of Manufacture.

Mr. Fullerton gave the prices of  
two grades of plants for the manu-  
facture of the juice. A small plant  
with a 2,000 gallon-a-day output  
would require a hydraulic press cost-  
ing \$300; equipment: 2 doz. camel  
hair cloths, \$4; 20-gallon vacuum pan  
and pump, \$110; boiler (10 h.p.)  
\$170; Illinois filler, \$75; emulsifier,  
\$25; Knapp labelling machine, \$400;  
capping machine, \$35; pipe \$25; to-  
tal, \$1,144. This machine would take  
the output of 120 acres, estimated at  
80,000 gallons, 40 days' picking and  
pressing, about cleans up the season.  
These were American prices on which  
must be added 10 per cent. machinery  
duty and 7 per cent. war duty. The  
large plant, with a capacity of 40  
tons a day, would cost \$2,623.75 f.o.  
b. San Francisco.

A car of juice, he explained, 12,000  
gallons, would sell for \$24,000 to  
\$28,000. The day it was bottled it  
was ready for market. Even taking  
a low average of 180 gallons to the  
ton, the wholesale price per gallon at  
\$2, and there was \$360, less \$70 to  
the farmer, for manufacture, adver-  
tising, office and profits. With all the  
waste and blunders of inexperience up  
to now the profits put any other bus-  
iness in the shade.

"By installing a vacuum pan it will  
be easily possible to so concentrate  
the juice that it can be sent to Eu-  
rope and diluted 30 times on arrival.  
It can, if properly neutralized, be  
sent in tin cans and save the cost of  
bottles here as well as packing closer  
and measuring less tons," it was ex-  
plained.

Picking was the heavy item. This  
cost \$20 a ton, but it gave employ-  
ment to many families. A ten-acre  
plot should, properly cultivated, yield  
40 tons, and would require ten pick-  
ers who should pick a ton a day on  
an average. Some would pick 100  
pounds and occasionally 250 pounds  
a day. A crate weighed 25 pounds  
net and contained 20 so-called quart  
boxes, the usual price being a cent a  
box for picking.

No matter what the capital stock  
might be the fruit would be bought  
like wheat on borrowed money, and  
as it was so quickly turned into cash  
and had such ready sale, the banks  
across the line were very glad to  
carry the account. Ten thousand ac-  
res would do wonders for Victoria.  
This was not much ground to put in  
wheat. But in berries it should pro-  
cure 40,000 tons, and at a low pres-  
sure of 170 gallons it would yield  
6,800,000 gallons of juice worth whol-  
sale \$2 a gallon, or \$13,600,000, of  
which the 1,000 growers would get  
\$2,800,000. This could not be done  
in a day, the speaker pointed out,  
but it might be accomplished in five  
years and the growth of the factory  
and increase in the sales would keep  
pace with the increased production.

### JAIL IS ALREADY EMPTY.

Winnipeg, Man., Oct. 20—For the  
first time since it was built 30 years  
ago the jail at Morden, Manitoba, has  
no prisoners confined within its walls.  
The citizens of Morden, in honor of  
the showing made under the prohibi-  
tion law, were entertained yesterday  
at an "empty jail" celebration. All  
the locks were free, the bolts on the  
cells were drawn and the front and  
back doors were open as the visitors  
walked along the corridors. Tea  
and cake made by ladies of the town  
were served in place of the prison  
fare given to prisoners for 30 years.  
Flags flew from the cell windows and  
from flagstaves in town.

## LOCAL AND PERSONAL

Rev. Andrew Walker has accepted a call to the pastorate of St. Paul's Presbyterian Church, Sidney and took up his duties here last week.

The Sidney Restaurant closed its doors to the public on Saturday last Mr. H. Amos, the proprietor having accepted a position with the Sidney Trading Company, Ltd.

The Columbia Theatre gave its final performance on Tuesday evening last, and from now until the soldiers go into camp here again next summer this popular place of amusement will remain closed to the public.

The jewellery which remained unsold at the White Elephant stall at the Old Country Fair held recently has been sent to the Superfluities in Victoria to be sold in aid of the Canadian Red Cross. It is valued at about \$50.

Firewarden F. J. Bittancourt was again called north by a telegram received on Tuesday to attend to a bush fire raging among the standing timber at Bedwell Harbor. Considerable damage has been caused by these fires on the various islands during the long dry fall.

Mrs. J. H. Williams and family, having disposed of their household goods and chattels at their residence on Amelia avenue, left yesterday for Vancouver where they will in future reside. They have made a host of friends in Sidney during their residence here that will regret very much their departure.

Mr. S. Roberts is busy to-day moving the office of the Sidney Water & Power Company from its temporary quarters on Second street, just south of the Bakery, to its original place of abode in the premises of the Western Dominion Land Company, recently occupied by Miss Amy Williams as a confectionary shop during the summer months.

The anniversary service of St. Paul's Presbyterian Church will be conducted by the Rev. Dr. McLean, of Victoria West, on Sunday, November 5th. On the Monday evening following a lecture will be delivered on the subject of a "Cruise in the Mediterranean Sea and a Trip Through the British Isles," illustrated by lantern slides. Further particulars will be announced next week.

To-day the children of the Sidney schools are holding a sale of candy the proceeds of which will be forwarded to the destitute children in Belgium through the Superintendent of Education at Victoria. This sale is in reply to a request which came from the Lord Mayor of London to the Duke of Connaught, asking that the children of Canada do something to relieve the distressing condition which prevails among these poor Belgian children. The proposition is being taken up by a majority of the schools in this province and it will no doubt meet with hearty support from the public.

### ANGLICAN SERVICES.

Sunday, October 29, 1916—Nineteenth Sunday after Trinity.  
8.00 a. m., Holy Communion at St. Andrew's.

Largest line, greatest variety, lowest prices known anywhere. Terms cash or time. Backed by four million dollar concern. Address The W. T. Rawleigh Co., Ltd., 1025 Gannett St. Winnipeg, Man., giving age, occupation and references.

## CITIZENS COMMITTEE ENTERTAIN GUESTS AT "SMOKER"

The farewell smoker given in Berquist's Hall on Wednesday evening to the officers and sergeants of the Headquarters Staff and the 143rd and the 231st Battalions, was a most successful and highly appreciated social event. The committee, composed of Messrs. J. J. White, James Critchley, Guy Walker, F. J. Roche, A. E. Moore, E. Blackburn, R. Sloan, A. Harvey, S. Spencer, E. F. Lesage, R. Knight and P. N. Tester, used every effort possible to insure the success of the venture. From the opening overture to the singing of the National Anthem everything went with a swing. Mr. P. N. Tester, the chairman, after a few words of welcome to the guests, proposed the toast to the King, which was drunk with great enthusiasm.

Then came the toast "The Canadian Forces," proposed by the chairman and responded to by Lieut.-Col. A. Bruce Powley, who made a very feeling response and during the course of his remarks gave a short account of the work accomplished by the 1st and 2nd Contingents after their arrival in France. He claimed to believe, however, that all the contingents from Canada will, if the opportunity offers, prove their metal equally as well.

The toast to the officers of the Brigade Staff and of the 143rd and 231st Battalions was proposed by Mr. J. J. White in a very happy but short address, and was responded to by Lieut.-Col. Leach, O. C. of the 231st, who spoke of the pride his battalion felt in their attachment to the glorious tradition of the old Highland regiments. Capt. Lundsell, adjutant of the 143rd, spoke for the B. C. Bantams in a humorous and pretty little speech.

The next toast was "The Navy," the proposer being Mr. James Critchley, who touched lightly on the work being done by that wonderful organization. He maintained that in every way the navy of to-day lived up to the highest tradition of the days of Blake and Nelson. Sergt. Rowe, an old sailor who served under Admirals Beresford, Seymour and Sir Percy Scott, spoke energetically in reply.

"The Returned Soldiers," proposed by Mr. Guy Walker, an old veteran of the Maori Wars in New Zealand, spoke by the work done by the Empire in his day. Mr. Walker was dressed in the uniform of a sergeant of the New Zealand Infantry and his appearance created quite a dramatic interest. Capt. Wallaston in a short reply thanked the audience for the manner in which the toast had been received and advised those present that on their return to Canada they should organize and buck any political party that in any way refused proper recognition of the returned men's rights. Sgt.-Major Ryder, only recently returned from the front, spoke of the non-commissioned officers' work and advised everyone to learn as much as possible of every part of the service, pointing out that he had made a study of the French 75 gun and in a short time was able to handle it as well as one of the regular gunners.

The next toast, "The Boys in the Trenches," was replied to by Capt. Max. Reid and Sgt.-Major Ryder in short but pithy speeches.

"The Imperial Forces" was next proposed and replied to by Sgt. Lawrence who, during the course of his address touched on his Indian military experiences.

The toast to the Sergeants of the Brigade and the Sergeants of the 143rd and 231st Battalions was replied to by Sgt.-Major Ewart, of the 231st, who touched a high note when he spoke of the necessity of organization, discipline and efficiency. Sgt.-Major Fink spoke on behalf of his brother sergeants of the 143rd in a short but appreciative address.

"The Ladies," proposed by the chairman, brought forth an interesting reply from Capt. McPherson, the medical officer of the 231st, who took

the opportunity of thanking the local Red Cross Society for their many donations and help towards the hospital work here. Mr. J. J. White in reply thanked Capt. McPherson for the kind manner in which he had paid tribute to the local branch of the Red Cross Society.

Space will not permit of a more lengthy account of the many interesting speeches delivered during the evening, further than to say that they were listened to with keen interest by all present.

One of the features of the evening was the brevity exercised by the chairman in his introductory addresses. He explained that time was short, the programme long, and that while silence was golden brevity, at least, was a virtue. During the course of the evening the following musical programme was rendered:

Overture, by 143rd Orchestra.  
Song, Sgt. Watts, 143rd.  
Selection by Orchestra, 143rd.  
Comic song in character, Mr. Moncylaws, of Victoria.  
Pipe selection, Corpls. McLennan and Kay.

Song, "Put Your Troubles in Your Own Kit Bag," Sgt. Sopp, 231st.  
Orchestra selection, 143rd.

The next event was easily the feature when "Bob" Sloan appeared in a character sketch entitled "Neath the Shade of the Old Apple Tree." As an encore he gave "The Shirt I Left Behind Me."

The Harmony Trio made two appearances.

Song, Sgt. Hughes.  
Speech and song, Sgt.-Major Ewart.  
Song, Lieut. Julier.  
Song, Capt. Leslie.

### BIRTHS.
